Plan 20th Annual Yale Bouchet Conference on Diversity and Graduate Education.
Pilot “Inclusive Leadership” mini-modules with GSAS staff, Directors of Graduate Studies, and Registrars.

DIVERSITY OF THE YALE COMMUNITY
Enhance recruitment practices by using a hybrid approach (in-person and virtual).
Work with Graduate School Alumni Association and Yale Alumni Association to host information sessions and receptions for prospective students.
Create databases to identify and track prospective students’ experiences through key recruitment programs.

EQUITABLE PROCESS, PROCEDURE, AND RESPONSES
Enhance Orientation Week training by including updated information for Student Accessibility Services, Title IX, and discrimination and harassment.
Post updated program-specific advising guidelines on the new GSAS website.
Ensure the new GSAS website is accessible to all and contains updated information regarding Yale mental health and wellness resources.

PROFESSIONAL AND PERSONAL DEVELOPMENT OF INCLUSIVE PRACTICE
Host workshops and provide individual advising as part of the “Diverse Career Paths Professional Development and Support Collaboration” between OCS and GSAS.
Continue working with the GSAA Departments and Programs Committee and DGIs to support information sessions for students following diverse career paths.
Provide coaching and advice around navigating the graduate school experience. One outcome may be the creation of Individual Development Plans.

ACKNOWLEDGEMENT, RECOGNITION, AND RESPECT
Continue building relationships with the Office of Public Affairs and Communications to highlight GSAS accomplishments (e.g., recipients of the Wilbur Cross Medal, the Faculty Mentor Award, and the Prize Teaching Fellows Award) at the University level and to a broader audience through features in Yale News.
Host staff appreciation social events – such as service milestone recognitions and small-group staff lunches – to build community.

“Without a diverse population and the inclusive climate that fosters retention, we cannot succeed in our mission to advance knowledge. The production of knowledge depends on collaborative exchanges amongst researchers who bring to this enterprise a diversity of experiences and perspectives.”
